**DUBOIS COUNTY PUBLIC HEALTH RESPONSE**

Dubois County has no confirmed COVID-19 cases at this time. For the most up to date local information, please visit our county website at [https://www.duboiscountyin.org/departments/health\\_department/index.php](https://www.duboiscountyin.org/departments/health_department/index.php)

The following agencies in Dubois County are working jointly together on a daily basis to take proactive measures to reduce the potential to acquire or spread the virus in our community. The safety health and wellness of our community is our mission. We will provide daily updates to keep the community informed.

Citizens of Dubois County are encouraged to follow the guidance and recommendations from the Governor Holcomb and Indiana State Department of Health. People with symptoms of fever, cough and shortness of breath should call your doctor's office or the Emergency Department before you arrive and tell them about your recent travels along with your symptoms.

The most important thing you can do right now is educate yourself about the virus. More information may be found at the Indiana State Department of Health or CDC websites that are linked to the Dubois County Health Department homepage.

Thank You:
